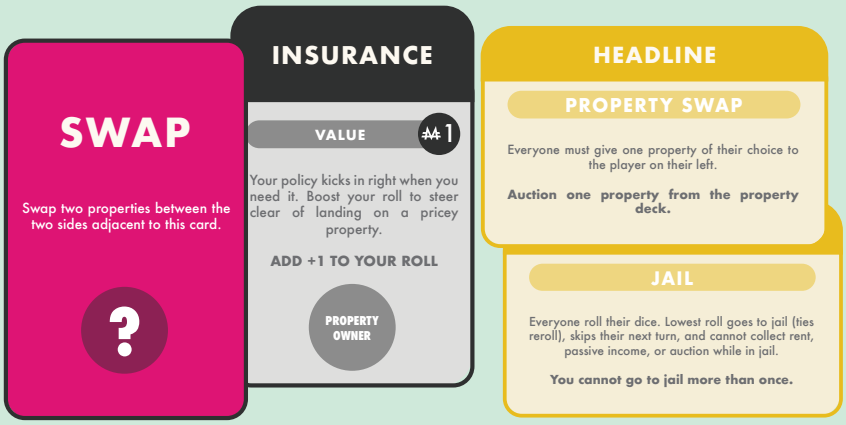
FAMILY FRIENDLY 10+ | PLAYERS 3-5 | MINUTES TO PLAY 70 to 90

THE GAME

Monopoly Auction is a fast-paced reimagining of Monopoly focused on blind auction bidding, shifting monopolies, and a dynamic property focused board. Players compete through constant blind auctions, strategic swaps, managing insurance to protect themselves, and evolving monopolies while *headlines* introduce game-wide events that keep everyone engaged the whole round. The game ends when all properties are sold and victory goes to the player who's built the most wealth—not the last one standing.

A sample of our new, re-designed cards with better numbers to make the math easier for our audience while avoiding bankruptcy as much as possible.



***Swap** spaces let players reshape the board any time during the game, **insurance** gives you a quick strategic boost in you find yourself on a pricey property, and end-of-round **headlines** shake up the entire table with fun, family-friendly twists. Together, these mechanics keep the game lively, interactive, and full of surprising moments that everyone can enjoy.*

COMPONENTS

- 1 Board
